REVEALED: The U.K. hunter who ‘has shot more wildlife than the killer of Cecil the Lion’

The Campaign to Ban Trophy Hunting has today revealed the identity of a British man who has killed hundreds of animals in 5 continents, and is considered to be among the world’s ‘elite’ in the global trophy hunting industry.

Malcolm King has won a staggering 36 top awards with Safari Club International (SCI), the industry’s biggest lobby group, and has at least 125 entries in SCI’s Records Book.

SCI President Paul Babaz, who is also a board member of the NRA, described the hunting group’s mission as “to protect the freedom to hunt whatever game we choose to hunt, as well as protect the right to own the firearms of our choice”.

The combined number of animals required for the awards won by King is 528. Among his awards are prizes for shooting African ‘Big Game’, wild cats, and bears, as well as animals in Asia and the South Pacific.

Eduardo Gonçalves, founder of the Campaign to Ban Trophy Hunting, said:

“Very few hunters anywhere have amassed so many of the industry’s obscene ‘Oscars’. Malcolm King is Britain’s ‘Walter Palmer’. The difference is he’s shot more animals than the killer of Cecil the Lion.”

The revelation comes just weeks before the Global March for Elephants and Rhinos, taking place on April 13 in major cities throughout Europe, the US and Africa. In the U.K., where 500,000 people have signed petitions calling for Britain to ban trophy imports, thousands will be marching to Downing Street to press their demands.

Governments are due to meet in Sri Lanka in May for the three-yearly CITES conference on trade in endangered species. The treaty bans trade in endangered wildlife except ‘in exceptional circumstances’. However a loophole currently exempts trophy hunters, allowing them to shoot even the most vulnerable species.

The Campaign to Ban Trophy Hunting says that an estimated 1.7 million animals have been killed by trophy hunters over the past decade, of which over 200,000 were endangered species.

It warned that lions were among those species that could be pushed to extinction by trophy

hunting. An estimated 10,000 lions have been killed by 'recreational' hunters in the last decade. Latest estimates for the African lion population put numbers at just 20,000, with some saying they could be as low as 13,000.

"Malcolm King has travelled to every corner of the globe to shoot animals for amusement," said Eduardo Gonçalves.

"People will be shocked to learn that CITES - the global convention meant to protect wildlife - permits trophy hunters to kill lions, elephants and rhinos for 'fun'.

"It's illegal for a desperate African to kill an elephant for meat or tusks. But a rich American or European can kill the same elephant to amuse himself and take its tusks home.

"Industry groups like Safari Club International promote prizes which actively encourage hunters to kill endangered animals in large numbers. It's little wonder our wildlife is in crisis.

"The U.K. government is a laggard when it comes to protecting vulnerable wildlife. The Trump administration prohibits imports of trophies such as cheetahs. Britain lets hunters bring them in.

"France, Holland and Australia have all banned lion trophies. Our government has done a u-turn on promises to do the same.

"Trophy hunting is an aberration in a civilised society. It's cruel, immoral and archaic, and is doing untold damage to endangered wildlife."

The Campaign was launched in October by former League Against Cruel Sports CEO Eduardo Gonçalves and WWF Director Jean-Paul Jeanrenaud with the backing of Sir Ranulph Fiennes and Bill Oddie.

The Campaign to Ban Trophy Hunting is supported by a range of public figures including:

- TalkTalk chairman Sir Charles Dunstone and businessman Julian Richer;
- Catholic Church environment spokesman Bishop John Arnold;
- TV presenters Lorraine Kelly and Eamonn Holmes; stars including Joanna Lumley, Annette Crosbie, David Jason and Jan Leeming;
- athletes such as Olympic gold medalist Sir Steven Redgrave and cricketer Kevin Pietersen;
- ex-RSPCA CEO Jeremy Cooper;
- ecologists Jonathon Porritt and George Monbiot;
- conservationists Damian Aspinall and Chris Packham; and
- musicians Ed Sheeran and Liam Gallagher, among others (See

The Campaign to Ban Trophy Hunting and Zac Goldsmith MP have tabled EDM 1829 calling for a U.K. ban on trophy imports. The motion has won cross-party support from 159 MPs including an unprecedented 4 Westminster party leaders and the chairman of the Conservative 1922 backbench committee: <https://edm.parliament.uk/early-day-motion/52304>

According to the Campaign to Ban Trophy Hunting's investigation, Malcolm King has won:

- 4 Safari Club International 'Continental Awards' for hunting in the South Pacific, Asia, Europe and Africa;
- 7 Safari Club International 'Grand Slam Awards' including the "Africa 29" (minimum 29 different species), "Dangerous Game of Africa" (minimum 5 different species), "Cats of the World" (minimum 4 different species) and "Bears of the World" (minimum 5 different species);
- 25 Safari Club International "Inner Circle Awards" including the 'Hunting Achievement Award (Diamond - minimum 125 SCI Record Book entries), the 'Global Hunting Award' (Gold - minimum 50 different species), and 'Animals of Africa' (Gold - minimum 61 different species).

He has also won the Safari Club International's coveted "Pinnacle of Achievement Award" (Fourth Pinnacle), and its "Zenith Award".

In addition he has won the "Ullman Award" (Fourth Echelon) which is a European hunting association award.

Full details of his awards and the species required for each are given below.

ENDS

Notes:

1. CITES (the Convention in International Trade in Endangered Species of Fauna and Flora) was established in 1975 and meets every 3 years. Representatives of the 182 member states are gathering in Colombo, Sri Lanka this year from May 23-June 3. The Campaign to Ban Trophy Hunting has launched a global petition calling on the trophy hunting 'loophole' to be closed:

https://actionnetwork.org/petitions/close-the-loophole-that-allows-hunters-to-kill-endangered-wildlife?source=direct_link&

2. A 'Global March for Elephants, Rhinos and Lions' is taking place in dozens of cities around the world, including London, on April 13. Organisers - including the Campaign to Ban Trophy Hunting - will hand in a letter to 10 Downing Street calling for an immediate ban on hunting trophy imports into the U.K.
